3. Products

Swappie sells used and refurbished mobile phones. The mobile phones are checked and refurbished by Swappie professionals before being placed on sale. Swappie grades the mobile phones based on their aesthetic condition. When placing an order, You will choose the desired model, colour, memory capacity and condition category of the mobile phone you wish to purchase. The mobile phones are used and refurbished, thus Swappie does not guarantee that the original splash, dust and water resistance condition (IP67 or IP68 certification) remains valid.

We make all reasonable efforts to accurately explain the attributes of our products, including their condition and colours.

Repairs and replacements are done with high quality parts, including third party parts. For more details on your device, please contact our customer service. All repairs are done to refurbish the phone as close to a new phone as possible.

If you bought an iPhone XR, XS or newer, you may see "Important Message" or warnings of "Unknown Parts" in your lock screen, notification center or in settings. These messages might appear when Swappie has done repair work on your device and some components needed to be replaced. For more information, please visit our Help Center.

4. Prices

The prices of the products include value added tax (VAT) when applicable. Used mobile phones are often subject to a VAT margin scheme.

The prices of the products do not include the delivery costs. The delivery cost is clearly indicated to You before placing the order, and dependent on the delivery method used.

Swappie reserves the right to cancel the order in the event of a clear and material price error. This refers to a possible pricing error where the price of the product deviates so significantly and clearly from the normal price level of the product that the average consumer would be considered to have understood the error in question.

5. Payment

Swappie accepts the following payment methods:

- Klarna (invoice, installments, bank transfer, card payment)

The terms and conditions of each of these payment providers shall apply to purchases made using their services. Swappie reserves the right to deny and/or cancel any order. Furthermore, in case of payment issues on Your part, Swappie reserves the right to annul the sale and demand that You return the products immediately.

6. Delivery

The current list of delivery methods can be found on Swappie's website. You are responsible for providing Swappie and the delivery service provider with correct information for successful delivery when placing your order, including Your address and phone number in the correct format.

The order processing time is on average 0–1 business days after the automatic order confirmation has been sent. Delivery time with DHL is usually 1–3 business days. Delivery time with Bring is usually 2–4 business days. Weekends and public holidays are not considered business days.

The delivery times are estimates and are dependent on the delivery service provider. Swappie aims to process all orders in the time frame above where possible. However, Swappie is not responsible for any delivery delays that are beyond its reasonable control, including, but not limited to, incorrect information provided by You when placing the order, strikes, weather conditions, epidemics, quarantines or shortages of transportation fuel, energy or labour.

In case You receive a wrong or damaged product, You are required to inform Swappie about this error within 72 hours of receiving the products. Swappie reserves the right to demand additional payment on the return of the wrong or damaged products.

7. Returns

You have a statutory 14-day right to return. Swappie guarantees a full refund for any returned products, provided that all products are returned in the same condition they were in upon Your receipt. If the products are damaged in any way, Swappie will either return the products to You or offer a paid repair service for them.

Swappie will issue a refund using the same payment method used to make the payment as soon as possible and at the latest within 5 days of receiving Your products. In some cases, such as during public holidays or for other reasons, the refund process may take longer. If Swappie is unable to issue a refund using the same payment method used to make the payment, the refund will be issued via an alternative method acceptable to You.

You are responsible for packing the products in a careful and protective manner before sending them to Swappie. The products are to be sent to us at the address and via the delivery service provider and manner specified in the instructions. You are responsible for the products until they have been delivered to Swappie. If You return the products to us from another country that is outside the EU, You are required to cover the costs for the shipment to Swappie.

Swappie reserves the right to return the phone to You if you fail to turn off the FMI within one (1) month after Swappie contacting You. 8. Liability for defects

You have a statutory guarantee for the products You purchase. In case You detect faults in the products that existed at the time You received the products and are not caused by mishandling the products, You must inform Swappie about them as soon as

possible after they have been detected. Notifying Swappie is to be done via email, telephone, the contact form in our Help Centre or the chat service on Swappie's website. Upon notifying us and having received instructions on how to proceed, the faulty product is to be sent to us at the address and via the delivery service provider and manner specified in the instructions within a reasonable time.

If You receive a product that is not in accordance with the product specifications, please inform us within three (3) days of receiving the product.

Swappie reserves the right to verify the faults reported in the products and 3–5 business days must always be reserved for this process before any possible refund may take place.
